

Soft toys filled with Recron® Fibrefill are best for babies. Because they make toys soft, comfortable and light.

What's more! They are non-toxic and avoid infestation much longer than cotton and other recycled fibre and can be washed and dried easily.

Soft toys can be filled with two types of Recron® Fibrefill:

- **6 Denier Hollow Siliconised** (soft and silky)
- **6 Denier Hollow Non-Siliconised** (soft and firm)

The common sizes are 90x60 inches with a filling quantity of 2 kgs.

Please Note:

Usually 51mm or 64mm fibres are used except for machine blown filling, where 32mm fibres are recommended.

The filling weight required with Recron® Fibrefill is 70% of cotton filling.
