800m poor getting free ration in this hour of crisis: PM

Spirit of ‘seva’ the guiding light for Modi govt: Shah

New Delhi: When Narendra Modi took charge in 2014, the country was reeling under the impact of the worst economic slowdown in a decade. The economy was struggling to recover from the impact of demonetisation and the poor performance of the monsoon. The country was in a state of economic shock, and the government was under immense pressure.

The Prime Minister, who is known for his strong leadership and determination, took immediate steps to address the economic crisis. He announced the ‘Swachh Bharat Abhiyan’ to combat the problem of open defecation and improve sanitation in the country. He also launched the ‘Jan Dhan Yojana’ to provide banking facilities to the poor.

The government also took steps to boost the economy by attracting foreign investment. The Prime Minister, in his speeches, emphasized the importance of ‘griya yudha’ for the development of the country.

The Prime Minister’s efforts paid off, and the country started recovering from the economic crisis. The economy started growing steadily, and the country saw a significant increase in foreign investment. The ‘Swachh Bharat Abhiyan’ and ‘Jan Dhan Yojana’ were widely appreciated by the people, and they supported the government’s initiatives.

The Prime Minister, in his speeches, emphasized the importance of ‘griya yudha’ for the development of the country. He said, “The spirit of Griya Yudha is the guiding light for us. It is the spirit of ‘seva’ that is guiding us. It is the spirit of service that is guiding us.

7 years of immeasurable pain, says Congress, lists govt’s 7 ‘blunders’

Sena slams Centre, calls for introspection

The Congress has accused the present government of several mistakes and said it is responsible for the present economic crisis in the country.

The Congress President said, “The government has failed to address the problems facing the country. It has failed to create jobs, and it has failed to control inflation.

The Congress has accused the government of several mistakes, including the demonetisation and the poor performance of the monsoon. The government has been unable to control the inflation, which has hit the poor the hardest.

The Congress President also said that the government has failed to control the inflation, which has hit the poor the hardest. The government has been unable to control the inflation, which has hit the poor the hardest.

RBI Expected to Keep Rates Unchanged

Monetary Policy Committee Meet

Central bank likely to retain its accommodative stance, pare growth estimate

Mr. Tapan Daga, executive director and chief economist of EDHEC-Risk Institute, said the RBI could keep its overnight policy rate unchanged on Monday but pare its growth estimate for the fiscal year that began on April 1.

He maintained it was likely to cut the rate at its next policy review in August, bringing it to zero for the first time in history, a year after it had started cutting rates to bolster the pandemic-hit economy.

"The RBI has been successful at managing expectations in terms of the timeline for rate cuts as a number of rate cuts have been announced so far in the calendar year," he said.

Inflation?

Barring food prices, which have remained high, inflation seems to be under control, and economists say the central bank could hold off on rate cuts.

Mr. Daga said inflation was likely to remain elevated in the next few quarters, and that could mean the RBI might not cut rates before August.

"The RBI will not change the policy rate until inflation pressures subside and there is a clear positive for economic activity," he said.

Inflationary pressures are likely to be subdued in the near term, he said, adding that the central bank could hold off on rate cuts until the end of August.

The central bank has already lowered rates by 75 basis points since May last year, and there is a risk of a policy rate cut being delayed into the fourth quarter of 2023.

Mr. Daga said the central bank had already taken steps to control inflation, such as raising interest rates, and that the focus now was on growth and economic development.

"The RBI is likely to keep rates unchanged for the next few quarters, and that will allow it to focus on economic development and growth," he said.

Mr. Daga said the central bank had already taken steps to control inflation, and that the focus now was on growth and economic development.
