At Reliance Industries Limited (RIL), Corporate Governance is all about maintaining a valuable relationship and trust with all stakeholders. We consider stakeholders as partners in our success, and we remain committed to maximising stakeholders’ value, be it shareholders, employees, suppliers, customers, investors, communities or policy makers. This approach to value creation emanates from our belief that sound governance system, based on relationship and trust, is integral to creating enduring value for all. We have a defined policy framework for ethical conduct of businesses. We believe that any business conduct can be ethical only when it rests on the six core values of Customer Value, Ownership Mindset, Respect, Integrity, One Team and Excellence.

STATEMENT ON COMPANY’S PHILOSOPHY ON CODE OF GOVERNANCE

Corporate Governance encompasses a set of systems and practices to ensure that the Company’s affairs are being managed in a manner which ensures accountability, transparency and fairness in all transactions in the widest sense. The objective is to meet stakeholders’ aspirations and societal expectations. Good governance practices stem from the dynamic culture and positive mindset of the organisation. We are committed to meet the aspirations of all our stakeholders. This is demonstrated in shareholder returns, high credit ratings, governance processes and an entrepreneurial performance focused work environment. Additionally, our customers have benefited from high quality products delivered at extremely competitive prices.

The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the management’s higher echelons. The demands of Corporate Governance require professionals to raise their competence and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics. It has thus become crucial to foster and sustain a culture that integrates all components of good governance by carefully balancing the complex inter-relationship among the Board of Directors, Audit Committee, Finance, Compliance and Assurance teams, Auditors and the senior management. Our employee satisfaction is reflected in the stability of our senior management, low attrition across various levels and substantially higher productivity. Above all, we feel honoured to be integral to India’s social development. Details of several such initiatives are available in the Report on Corporate Social Responsibility.

At RIL, we believe that as we move closer towards our aspirations of being a global corporation, our Corporate Governance standards must be globally benchmarked. Therefore, we have institutionalised the right building blocks for future growth. The building blocks will ensure that we achieve our ambition in a prudent and sustainable manner. RIL not only adheres to the prescribed Corporate Governance practices as per Clause 49 of the Listing Agreement with the Stock Exchanges in India (Listing Agreement), but is also committed to sound Corporate Governance principles and practices. It constantly strives to adopt emerging best practices being followed worldwide. It is our endeavour to achieve higher standards and provide oversight and guidance to the management in strategy implementation, risk management and fulfilment of stated goals and objectives.

Over the years, we have strengthened governance practices. These practices define the way business is conducted and value is generated. Stakeholders’ interests are taken into account, before making any business decision. RIL has the distinction of consistently rewarding its shareholders over 37 eventful years from its first IPO. Since then, RIL has moved from one big idea to another and these milestones continue to fuel its relentless pursuit of ever-higher goals.

On stand-alone basis, we have grown by a Compounded Annual Growth Rate (CAGR) of Revenues 25.8%, EBITDA 26.4% and Net Profit 27.4%. The financial markets have endorsed our sterling performance and the market capitalization has increased by CAGR of 31.7% during the same period. In terms of distributing wealth to our shareholders, apart from having a track record of uninterrupted dividend payout, we have also delivered consistent unmatched shareholder returns since listing. The result of our initiative is our ever widening reach and recall. Our shareholder base has grown from 52,000 after the IPO to a consolidated present base of around 2.8 million.
For decades, RIL is growing in step with India’s industrial and economic development. The Company has helped transform the Indian economy with big-ticket projects and world-class execution. The quest to help elevate India’s quality of life continues unabated. It emanates from a fundamental article of faith: ‘What is good for India is good for Reliance’.

We believe, Corporate Governance is not just a destination, but a journey to constantly improve sustainable value creation. It is an upward-moving target that we collectively strive towards achieving. Our multiple initiatives towards maintaining the highest standards of governance are detailed in the following pages.

**Appropriate Governance Structure with defined roles and responsibilities**

The Company has put in place an internal governance structure with defined roles and responsibilities of every constituent of the system. The Company’s shareholders appoint the Board of Directors, which in turn governs the Company. The Board has established seven Committees to discharge its responsibilities in an effective manner. The Chairman and Managing Director (CMD) provides overall direction and guidance to the Board. Concurrently, the CMD is responsible for overall implementation. In the operations and functioning of the Company, the CMD is assisted by four Executive Directors and a core group of senior level executives.

**Board Leadership**

A majority of the Board, 7 out of 13, are Independent Directors. The Board’s actions and decisions are aligned with the Company’s best interests. It is committed to the goal of sustainably elevating the Company’s value creation. The Company has defined guidelines and an established framework for the meetings of the Board and Board Committees. These guidelines seek to systematise the decision-making process at the meeting of the Board and Board Committees in an informed and efficient manner.

The Board critically evaluates the Company’s strategic direction, management policies and their effectiveness. The agenda for the Board reviews include strategic review from each of the Board committees, a detailed analysis and review of annual strategic and operating plans and capital allocation and budgets. Additionally, the Board reviews related party transactions, possible risks and risk mitigation measures, financial reports from the CFO and business reports from each of the sector heads. Frequent and detailed interaction sets the agenda and provides the strategic roadmap for the Company’s future growth.
