Dronagiri Pagote North Second Infra Limited
Notes to the Financial Statements for the year ended 31st March, 2022

A. CORPORATE INFORMATION

Dronagiri Pagote North Second Infra Limited ['the company'] having CIN U70109MH2019PLC320562 is a limited company incorporated in India. The registered office of the Company is located at 2nd floor, Maker Chambers IV, 222, Nariman Point, Mumbai - 400021 The Company's objective is to mainly engaged in activities of Real Estate, Infrastructure Development and Manufacturing of Electronics and related components.

B. SIGNIFICANT ACCOUNTING POLICIES

B.1 Basis of Preparation and Presentation

The financial statements have been prepared on the historical cost basis.

The Financial Statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013, (as amended from time to time) and Presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS Compliant Schedule III) as amended from time to time.

The Company's financial statements are presented in Indian Rupees (₹), which is its functional currency and all values are rounded to the nearest hundred (₹ 00) except when otherwise indicated.

B.2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Current and Non-Current Classification

The Company presents assets and liabilities in the Balance Sheet based on Current/ Non-Current classification.

An asset is treated as Current when it is –

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

(b) Finance Cost

All borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

(c) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Dronagiri Pagote North Second Infra Limited
Notes to the Financial Statements for the year ended 31st March, 2022

(d) Tax Expenses

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In this case, the tax is also recognised in other comprehensive income and equity.

Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted at the Balance sheet date.

Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

(e) Financial instruments

i) Financial Assets

A. Initial recognition and measurement

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

B. Subsequent measurement

a) Financial assets measured at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

C. Investment in Fellow Subsidiaries & Associates

The Company has accounted for its investments in fellow subsidiaries & Associates at cost.

D. Impairment of financial assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment assessment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. Further the company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Dronagiri Pagote North Second Infra Limited
Notes to the Financial Statements for the year ended 31st March, 2022

ii) Financial liabilities

A. Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in Statement of Profit or Loss as finance cost.

B. Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

iii) Derecognition of financial instruments

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

C. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY:

The preparation of the Company's financial statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years. No judgements and estimates were required to be made in preparing these financial statements that were critical or material.

D. STANDARDS ISSUED BUT NOT EFFECTIVE

On March 23, 2022, the Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2022. This notification has resulted into amendments in the following existing accounting standards which are applicable to company from April 1, 2022.

- i) Ind AS 101 - First time adoption of Ind AS
- ii) Ind AS 103 - Business Combination
- iii) Ind AS 109 - Financial Instrument
- iv) Ind AS 16 - Property, Plant and Equipment
- v) Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets
- vi) Ind AS 41 - Agriculture

Application of above standards are not expected to have any significant impact on the company's financial statements.

7	Trade Payables Turnover Ratio	Not applicable	Not applicable
8	Net Capital Turnover Ratio	Not applicable	Not applicable
9	Net Profit Ratio %	Not applicable	Not applicable
	Return on Capital Employed (Excluding Working Capital Financing)^	(0.03)	(0.03)
11	Return on Investment	Not applicable	Not applicable

* Current Ratio increased mainly due to decrease in current liability

^ Return on Capital employed increased due to increase in Capital Employed

9.1 Formulae for computation of ratios are as follows:

Sr. No.	Particulars	=	Formula
i	Current Ratio	=	Current Assets Current Liabilities (Including Current maturities of Non-Current Borrowings)
ii	Debt/ Equity Ratio	=	Non-Current Borrowings + Current Borrowings Equity Share Capital + Other Equity
iii	Debt Service Coverage Ratio	=	Earnings before Interest, Tax and Exceptional Items Interest Expense + Principal Repayments made during the period for long term loans
iv	Return on Equity Ratio (%)	=	Profit After Tax (Attributable to Owners) Average Net Worth
v	Inventory Turnover Ratio	=	Cost of Goods Sold (Cost of Material Consumed + Purchases + Changes in Inventory + Manufacturing Expenses) Average Inventories of Goods
vi	Trade Receivables Turnover Ratio	=	Value of Sales & Services Average Trade Receivables
vii	Trade Payables Turnover Ratio	=	Cost of Materials Consumed (after adjustment of RM Inventory)+Purchases of Stock-in-Trade+ Other Expenses Average Trade Payables
viii	Net Capital Turnover Ratio	=	Value of Sales & Services Average Working Capital
ix	Net Profit Ratio (%)	=	Profit/ (Loss) after tax (after exceptional items) Value of Sales & Services
x	Return on Capital Employed (%)	=	Net Profit After Tax + Deferred Tax Expense/(Income) + Finance Cost (-) Other Income Average Capital Employed \$\$
xi	Return on Investment (%)	=	Other Income (Excluding Dividend) Average Cash, Cash Equivalents & Other Marketable Securities

\$\$ Capital employed includes Equity, Borrowings, Deferred Tax Liabilities, Creditor for Capital Expenditure and reduced by Investments, Cash and Cash Equivalents, Capital Work-in-Progress and Intangible Assets under Development.

10. CAPITAL MANAGEMENT

The Company manages its capital to ensure that it will continue as going concern while maximising the return to stakeholders. The company manages its capital structure and make adjustment in light of changes in business condition.

11. FINANCIAL INSTRUMENTS

Valuation

All financial instruments are measured at amortised cost as described below:

Fair Value measurement Hierarchy:

Particulars	(₹ in Hundred)								
	Carrying amount	As at 31st March, 2022			Carrying amount	As at 31st March, 2021			
		Level of Input used in				Level of Input used in			
		Level 1	Level 2	Level 3		Level 1	Level 2	Level 3	
Financial Assets									
At Amortised Cost									
Cash and Cash Equivalents	4 171	-	-	-	4 661	-	-	-	-

The financial instruments are categorised into three levels based on the inputs used to arrive at fair value measurements as described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs based on unobservable market data.

Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due causing financial loss to the company. It arises from its investment activities, derivative instruments and other financial assets. Company does not carry any material credit risk.
