### **JIO TRUE 5G NOW AVAILABLE IN PUNE**

- **JIO TRUE 5G IS NOW AVAILABLE IN PUNE FROM 23<sup>RD</sup> NOVEMBER '22**
- **INVITED 'JIO WELCOME OFFER' USERS TO GET UNLIMITED 5G DATA WITH UPTO 1 Gbps+ SPEEDS**

**Mumbai, 23<sup>rd</sup> November 2022:** Jio today announced that Jio True 5G will now be available in Pune thereby providing Pune-kars a reason to rejoice with Unlimited 5G Data at upto 1 Gbps+ speeds. Jio begins Beta testing of its True 5G network in a city only when a large part of the city is covered by its StandAlone True 5G network, so that Jio customers get good coverage and experience the most advanced Jio 5G network.

Commenting on this announcement, Jio Spokesperson said, “*Post the launch of Jio True 5G in 12 cities, large number of Jio users have enrolled into the Jio Welcome Offer thereby helping Jio with customer and service feedback to create what will be the most advanced 5G network anywhere in the world.*”

*As expected, the data usage on Jio's True 5G network is many-a-times higher than the current data consumed on Jio's 4G network. What stands out is that this data experience is being delivered at break-neck speeds ranging anywhere between 500 Mbps to 1 Gbps and at extremely low latency that enables use-cases across various verticals that only a True 5G network can bring to life.”*

Pune has a large student population and is regarded as a leading IT hub, as well as one of the most important automobile and manufacturing hubs in India. Jio True 5G will be a true game changer for Pune-kars.

Starting 23<sup>rd</sup> November, Jio users in Pune will be invited to the Jio Welcome Offer, to experience Unlimited Data at up to 1 Gbps+ speeds, at no additional cost.

#### **About Reliance Jio Infocomm Limited:**

Reliance Jio Infocomm Limited, a subsidiary of Jio Platforms Limited, has built a world-class all-IP data strong future proof network with 4G LTE technology. The network is 5G ready with no legacy infrastructure and indigenous 5G stack. It is the only network conceived as a Mobile Video Network from the ground up. It is future ready and can be easily upgraded to support even more data, as technologies advance on to 6G and beyond.

Jio has brought transformational changes in the Indian digital services space to enable the vision of Digital India for 1.3 billion Indians and propel India into global leadership in the digital economy. It has created an eco-system comprising of network, devices, applications and content, service experience and affordable tariffs for everyone to live the Jio Digital Life.
