

2021: Version 2

Dear Customer,

Subject: SVHC declaration

ECHA has so far identified certain chemical substances as the Substances of Very High Concern (SVHC).

Appendix 1 on the following pages also gives the current list of SVHC substances which are in the Candidate List of REACH Regulation (EC/1907/2006) (Updated January 2021).

- We confirm that these substances are not present in more than 0.1% weight / weight in Polyvinyl Chloride Reon 67GER01F.

As the list is subjected to be updated from time to time, we will also update you on the SVHC status of any such chemical, if included at later stage.

The declarations given above are applicable to the material as it leaves the RIL production facilities and does not include any substance subsequently added by the converter or any other agency. As the conditions of usage at the customer's place are beyond the control of RIL, Customers are advised to make their own decision regarding their use of our grade is safe, lawful and suitable for the intended applications.
